

EarthScope Geochronology graduate student award program

(Flowers, Metcalf, Schoene,
Rittenour, Arrowsmith)

- Funds for high-impact research and to facilitate training, education, and interaction between graduate students and experts in geochronology
- Graduate students can apply for up to \$10,000 for analytical costs, sample preparation, travel to the host lab, lodging, and other expenses (15 total awards in two years)
- Must coordinate with host laboratory (better not at home institution)
- Needs to address processes manifest in or history of North America—see EarthScope Science Plan
- March 2015 deadline
