

# CSEP Tech Meeting Objectives

1. Assess CSEP requirements and priorities for EFP prototype experiments
2. Develop EFP implementation plan
3. Assess designs for new short-term and retrospective experiments to support
4. Recommend priorities for CSEP activities

# Outcomes

1. Document defining recommended prototype EFP experiments
2. Implementation plan for EFP experiments
3. Recommendations for the design of new short-term and retrospective experiments
4. Recommendations for the prioritization of CSEP activities

# Agenda

## Wednesday

### EFP/OEF

- Session 1: Technical Planning for Implementing Prototype EFPs
- Session 2: CSEP Experiments to Support OEF/EFP Activities

## Thursday

### Seismicity-based Experiments

- Session 3: Experiment Design: Assumptions, Issues, Solutions
- Session 4: Data Uncertainties in CSEP Experiments
- Session 5: Strategies for Retrospective Experiments
- Session 6: When Models and Data Keep Changing
- Session 7: Recommendations
